

FortiGuard™

PREVENTION IS PROTECTION

WHY CHOOSE FORTIGUARD

Proprietary Technology

Based on patented PerQuat® technology, the only EPA-registered solid floor sanitizer designed to control pathogens when used in foot pans and entryways

EPA-Registered

Proven to kill pathogens and inactivate viruses

Long-Lasting

With proper management, active ingredients remain stable for up to 8 weeks

Verifiable

Quickly test and verify active ingredients are still stable

Compatible

Lack of odor and low dust profile provide for a better user experience and formulated to add traction

SPECIFICALLY DESIGNED TO PREVENT CROSS CONTAMINATION

The last line of defense for sustainable food animal production and animal welfare is at the entryway of your facility. Controls pathogens such as *Salmonella*, Avian influenza, PEDv, PRRS and Newcastle disease virus.

FORTIGUARD PRODUCT FAMILY
