Prevention is Protection

Specifically designed to remove biofilm

Removes biofilm, kills pathogens within biofilm and inactivates viruses

Why Choose FortiSolve

Proprietary Technology
Patented PerQuat® technology has the unique ability to penetrate and remove biofilms and simultaneously kill pathogens

Biofilm Removal
Only product on the market specifically tailored to sanitize, disinfect, and remove biofilm in animal drinking lines

Non-Flammable
Lower risk associated with warehousing and transportation

EPA-Registered
Proven to kill pathogens and inactivate viruses

Equipment Friendly
Compatible with materials commonly used in waterlines. Prevents plugging of lines and nipple drinkers

Reduces Residue
Removes organics, slime and scale associated with biofilms

Specifically designed to remove biofilm

Removes biofilm, kills pathogens within biofilm and inactivates viruses
FORTISOLVE PRODUCT FAMILY

Distinct red dye aids in proper product application and flushing

FortiSolve
#056644 (2.5 gal each) | (5 gal)
#099375 (FortiSolve 100, 55 gal)
#099449 (FortiSolve 200, 55 gal)

HARD SURFACE CLEANING + DISINFECTION

Kills Pathogens and Inactivates Viruses:
- *Escherichia coli*
- *Salmonella enterica*
- *Staphylococcus aureus*
- *Pseudomonas aeruginosa*
- *Campylobacter jejuni*
- Avian influenza
- Newcastle disease virus
- Porcine epidemic diarrhea virus (PEDv)
- Porcine reproductive and respiratory syndrome (PRRS)
- Rotavirus
